

ServeNoMaster 139: Flying with Babies on the Plane

Highlights:

[1:30] What Bad Parenting Look Like

- Not doing anything to discipline a bad behaving child
- Stewards not doing anything to help fix the issue

[3:19] Understand that children are uncomfortable because of the difference in air pressure. Give them something to chew like a pacifier or gum.

[3:53] Have courtesy to other passengers by taking a screaming child to a toilet.

[4:38] Keep your kid extra awake before the flight so that your kid is sleeping throughout the flight.

[10:54] Put as much goodness into the world in order to reap goodness and have a good life.

[12:10] When you treat people right, you get a much better experience.
